

ENABLING NONPROFITS TO EMBRACE DIGITAL TRANSFORMATION

Nonprofit organizations operate with a noble cause to create a positive impact on health, society, and the environment by shifting organizational and shareholder focus away from purely commercial purposes. Nonprofits can gain competitive advantage by providing seamless digital experiences for employees and customers, and also by effectively managing enterprise assets. However, nonprofits are often challenged with limited resources, technical expertise, and budget constraints when it comes to deploying digital solutions.

With the ServiceNow low-code development platform, Exterprise has created quick start implementation programs specifically for nonprofits to streamline processes, improve service delivery, and enhance the overall experience for employees and communities served.

NOWnp SOLUTION

NOWnp is the ideal cloud-based platform for nonprofits to automate and connect work across the organization with generative AI, Now Intelligence, and other capabilities.

FEATURES / FUNCTIONS

No/Low-Code Development: Provides development tools that make it easy for non-developers to quickly build apps with little to no-code.

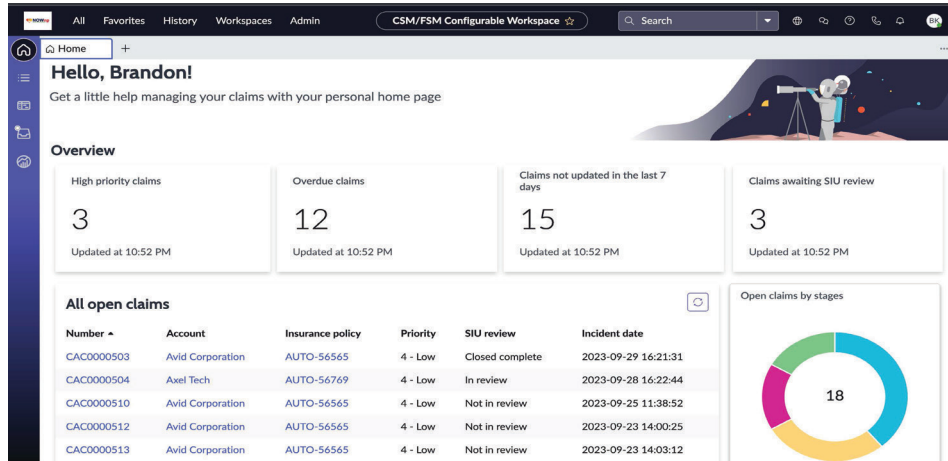

Now Intelligence: Helps drive automation with intelligent orchestration of processes. Predict issues, make smarter business decisions, and help people get work done easier and faster.

Workspaces: Deliver personalized experiences that engage teams and enhance productivity with new collaborative workspaces.

Flow Designer: Automate business processes by creating end-to-end digital workflows in a no-code environment.

Security: Secure by default and supporting application security and data protection, as well as your Identity plus Access Management (IAM) needs.

Integration Services: Makes it easy to connect any systems, apps and data with custom integrations or pre-built connectors to popular business apps.

TIMELINE

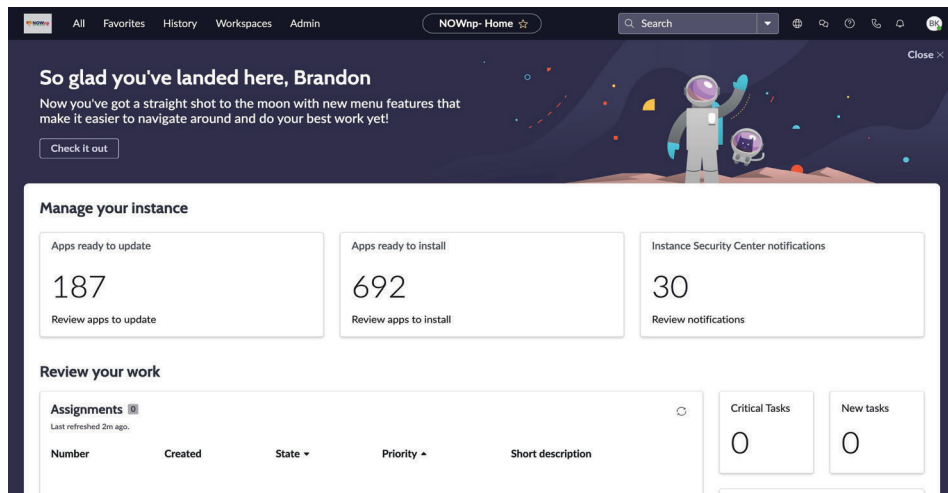

Six to Seven weeks of consulting, implementation, testing and go-live.

BUDGET

\$30,000 to \$35,000 with flexible payment terms. Exterprise will provide post go-live support for a period of two calendar months, for up to 20 hours a month. Nonprofit hourly rate: USD \$80.

NOTE: Integration with external applications, ServiceNow licenses purchased, migration of historical data and other customizations will affect the timeline and budget.

OPTIMIZE PROCESSES, CONNECT DATA AND ORGANIZATIONAL SILOS, AND ACCELERATE INNOVATION AT SCALE.

Generative AI: Empower everyone with Now Assist and accelerate productivity across the enterprise.

Admin Center: Make it easy for admins to find and configure Now Platform apps and capabilities.

Performance Analytics: Anticipate trends, prioritize resources, and continuously improve with real-time analytics.

Automation Discovery: Find opportunities to automate workflows and processes with ServiceNow apps.

Training: Exterprise will conduct three, one-hour, virtual sessions (limited to 5 trainees) to train on frequently used features and agent ticket handling functions. Advanced configuration functions/scripting will not be part of the training. Additional training sessions can be purchased.

EXTERPRISE is a pure-play ServiceNow consulting and implementation partner headquartered in Dallas, TX. With presence in USA, India, and Central America, Exterprise offers cost-effective and quick implementation of ServiceNow solutions for nonprofits. Exterprise's SOC2, ISO 27001 and HIPAA certifications give customers peace of mind and extra reassurance.
